Subject: RE: Form C-141 Final Report (Gates ACC Battery, 1RP-1690)

RE: EOG * Gates ACC Battery * **2RP-1690** * DOR: 5/28/13

Bob,

Your request for closure of the above referenced release is approved.

If you have any questions or concerns, please contact me.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

Subject: Form C-141 Final Report (Gates ACC Battery, 1RP-1690)

My apologies, the work per the work plan was completed in March, just getting to the final report.

Thank you,

RE: EOG Y (Formerly Yates Petroleum) * Gates AAC Battery * 2RP-1690 * DOR: 5/28/13

Bob,

Your proposal for remediation of the above referenced release is approved. OCD does not necessarily consider this liner installation complete protection from any future release events that may occur in this battery.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns, and for notification, please contact me.
