RE: COG Operating \* BKU 933H \* 2RP-4083 \* DOR: 1/16/17

Greetings,

The Tetra Tech proposal for remediation of the above referenced release is approved. OCD requests confirmation of lateral definition of impact. With light end hydrocarbons being the elevated COC at this site, a PID meter may be utilized during excavation operations to make this determination. Please include that data in the closure report. Please advise once remedial activities have been scheduled. Federal sites will require like approval from BLM.

If you have any questions or concerns, and for notification, please contact me.

Mike Bratcher  
NMOCD District 2  
811 S. First St.  
Artesia NM 88210

mike.bratcher@state.nm.us

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

**Subject:** COG - Burch Keely Unit #933H - Work Plan Approval Request - 2RP-4083

*Good Morning,*

*Attached is the work plan for the COG – Burch Keely Unit #933H located in Eddy County, New Mexico. Once approved, COG will implement the proposed work plan. Let me know if you have any questions or concerns.*

*Thank you,*
