### **RE: 2RP-3956**

Amy,

Federal sites will require like approval from BLM.

Thanks,

**Mike Bratcher**

RE: XTO (Formerly BOPCO well site) \* Hudson Fed Btry 1 aka Hudson Fed 7 \* 2RP-3956 \* DOR: 10/3/16

Greetings,

Your proposal for remediation of the above referenced release is approved with the following:

The proposal indicates a 1' excavation in the battery area, with remaining contaminants to be addressed at time of facility closure. For OCD, this will be a deferral. Notations will be made in OCD database/OCD Online referencing the remaining contamination and open environmental compliance issue.

If you have any questions or concerns, please contact me.

**Mike Bratcher**  
NMOCD District 2  
811 South First Street  
Artesia, NM 88210  
575-748-1283 Ext 108

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In

addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

Hi Mike and Crystal,

Have you had a chance to look over these two work plans? Please call with any questions or concerns. Thanks ☺

Mike and Crystal,

Attached are work plans to address the releases that occurred at our battery and north of the well location last year. I would like to come by your offices to discuss the proposed remediation of the site. Please review the reports at your convenience and I will be happy to answer any questions you may have.

Do you have time to meet **Wednesday 9 am**?
