RE: Devon Energy * Algerita 32 St. 1 * **2RP-3345** * DOR: 10/3/2015

Kimberly,

Your proposal for remediation of the above referenced release is approved with the following:

Target remediation goal for chloride levels in sidewalls is 600 mg/kg.

OCD believes groundwater could possibly be encountered at shallower depths than indicated in the proposal, however, based on the vertical delineation performed, and current OCD spill guidance, the proposal is approved.

Mike Bratcher
NMOCD District 2
811 South First Street
Artesia, NM 88210
575-748-1283 Ext 108

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

Mike,

Please find attached the work plan for the above referenced location. We would like to move on this early next week.

Thank you.

Kimberly
