Subject: RE: Aspen 32 State Com #1 Transfer Line, 2RP-3465

RE: Vanguard NR LLC * 2RP-3465 * DOR: Discovered 12/11/15

Daniel,

Your proposal for remediation of the above referenced release is approved with the following: OCD requests the excavation be extended to the 6' interval in the areas identified as SP 1 and SP2. Those areas may then be backfilled to 4' and a liner installed over the entire area of impact. Please advise once remedial activities have been scheduled.

If you have any questions or concerns, please contact me.

Thank you,

Mike Bratcher
NMOCD District 2
811 South First Street
Artesia, NM 88210
575-748-1283 Ext 108

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.
