Subject: RE: Turner B South #108 (3001528984) Remediation Work Plan

Michael,

I am not sure if this plan addresses Dara's concerns with the pit, but OCD is no longer going to approve proposals that state TPH data was obtained with a PID meter. So, this proposal is denied as submitted.

Subject: Turner B South #108 (3001528984) Remediation Work Plan

All -

BLM does not approve the Remediation Work Plan for the Turner B South #108, Release Date 9.28.2011, dated 3.4.2016. Per BLM requirements, when an event involves a pit, whether working or not, the pit needs to be remediated immediately.

Please submit a revised remediation work plan including the pit within 30 days, no later than April 22, 2016.

Any further questions or comments, feel free to contact me.

Thank you.

The BLM approval/acceptance does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment or if the location fails to reclaim properly. In such an event that the location does not revegetate, or future issues with contaminants are encountered, the operator will be asked to address the issues until the contaminant issues are fully mitigated and the location is successfully reclaimed. In addition, BLM approval does not relieve the operator of responsibility for compliance with any other federal, state or local laws/regulations.
