Dear OCD,

On behalf of Agua Sucia, Price LLC (Third Party) consultant, has reviewed the most recent spill reports 2RP-4391, -4392, -4393 and found some minor discrepancies. On advice from our attorney, Agua Sucia is submitting these reports (attached) to OCD to be filed accordingly. We do apologize for this inconvenience.

One of the items of our proposal to Mr. Billings is that we will improve the quality of communication and reports to OCD. This is the beginning of that process.

Second, we have also met with the BLM and we have made our first on-site Phase I Audit of the recent release sites and toured the field.

We will stay in touch and continue to report our progress and seek approval concerning on-site investigations and remediation efforts in a report to be submitted no later than November 30, 2017.

Thank you for your support and cooperation concerning this matter. I am confident that if we work together we can accomplish all of our goals.
