Subject: RE: Sunoco Pecos River Station Truck Unloading / Bridger

RE: Bridger LLC * Sunoco Pecos River Station * 2RP-4435 * DOR: 9/6/17

Kimberly,

Based on analytical data obtained and potential for encountering ground water at relatively shallow depths, OCD requests additional delineation and very likely, removal of additional impacted material, especially in the area identified as S-1. OCD notes that all sample points show hydrocarbon impact above RRAL for this site.

If you have any questions or concerns, please contact me.

Mike Bratcher
NMOCD District 2
811 South First Street
Artesia, NM 88210
575-748-1283 Ext 108

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

Subject: Sunoco Pecos River Station Truck Unloading / Bridger

Mike,

Please see attachments for the groundwater data, site maps along with the lab data for the Sunoco/Bridger Unloading Station.

Did you receive a workable copy of the initial C-141 as requested?

Everyone wants this cleaned up but as to not jeopardize the structural integrity of the tanks at this location, what are our options? Also looks like there has been some historical issues out here.

Please call to discuss. Thank you.

Respectfully,

Kimberly M. Wilson
