RE: COG * Folk Federal Tank Battery * 2RP-3964 * DOR: 10/14/16

Greetings,

After a review of the proposal to defer the above referenced release, based on analytical data and potential relatively shallow depth to ground water, OCD requests a boring be installed, as close to the impacted area as possible, to determine actual depth to ground water at this site. Water quality and a determination of impact may be required. Please advise once this activity has been scheduled.

If you have any questions or concerns, please contact me.
