Subject: RE: Fasken El Paso Federal No. 12 and Gossett 20 spills

Aaron,

I didn't notice when reviewing the closure, but I will need a form C-141 Final Report to finish closing the El Paso Fed. I will look at the Gossett next, but will need a form C-141 Final Report for that one as well if we are closing it.

Thanks,

Mike Bratcher

Subject: Fasken El Paso Federal No. 12 and Gossett 20 spills

Mike,

Doc Oberding and I had discussed the soil stockpiles remaining at both of these tank batteries, since the concentrations in the excavations were below limits. Two samples from each stockpile were collected. The lab reports for each are attached. I have also attached the original closure requests that I sent to Crystal.

I would like to return the pea gravel to the inside of the firewall at the Gossett.

I would like to allow our operations personnel to re-use the stockpile at the El Paso Federal No .12 at their discretion.

Please call or email with any questions,

Aaron Pachlhofer, P.G.
