Subject: RE: Core Sampling

Mr. Pair,

We are scheduled to have the core rig next week (1/13-1/17) for sampling. At this time we can't give an exact date or time that the rig will be at a particular location for sampling. We have four sites to sample just south of Artesia before moving to the Livingston Ridge/Martha/Dolores areas. I will only be able to send an email out the day before we move out here. As soon as I am aware of date and time, I will let you know.

Thanks,
Amber

Jim,

Per our telephone conversation this morning, Friday, December 13, 2013, I informed you that our scheduled core sampling events for the week of 12/16/2013 through 12/20/2013 has been cancelled by the contractor due to delays in the current projects that they are performing. These sampling events included Federal locations within the Martha AIK Federal leases and the Livingston Ridge SWD Water System. I informed Mike Bratcher by means of a voicemail for the delay in these and State of New Mexico locations that sampling was to occur. With the pending holidays and other prior events, Yates will schedule for the new sampling events for the week of the 13th of January 2014. Because of the unavailability of other contractors that can core sample, Yates would prefer to utilize Talon.

If there are any questions, please contact me.

Thank you.

Robert Asher
