RE: COG * Electra Federal #58 * 30-015-38182 * 2RP-3969

Dakota,

Your proposal for remediation of the above referenced release is approved with the exception that ODC requests the excavation extend through the 4' interval at sample area S4. Please advise once remedial operations have been scheduled. Federal sites will require like approval from BLM.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns, and for notification, please contact me.

Thank you,

Crystal Weaver
