The **BLM acceptance/approval does not** relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment or if the location fails to reclaim properly. In such an event that the location does not revegetate, or future issues with contaminants are encountered, the operator will be asked to address the issues until the contaminant issues are fully mitigated and the location is successfully reclaimed. In addition, BLM approval does not relieve the operator of responsibility for compliance with any other federal, state or local laws/regulations.

Curt,

Your proposal for remediation of the above referenced release is approved. Federal sites will require like approval from BLM. Please advise once remedial activities have been scheduled.

Thank you,

Mike Bratcher

Subject: Concho - Loco Hills SWD 33 #004 - Soil Investigation and Proposed Remediation Workplan

All,

On behalf of Concho Operating, LLC (Concho), please find the attached “Soil Investigation Summary and Proposed Remediation Workplan” for the Concho – Loco Hills SWD 33 #004 Facility (2RP-4359). On your collective review and approval of the proposed Workplan, Concho would like to commence the proposed remediation activities as soon as possible. The Loco Hills SWD 33 #004 Facility is an integral part of the Concho production system in the Loco Hills area and the rebuilding of the SWD is a priority for Concho.

Thank you for your consideration,

Respectfully submitted,

Curt D. Stanley
