Crystal,

This release (2RP-4498) had the same footprint as the previous release (2RP-4241). We recently resampled this site due to the second spill. I am planning on addressing both RP's with one work plan. Let me know if you have any questions or concerns.

Thank you,

Sheldon L. Hitchcock

RE: COG * Gehrig Federal #1 * 30-015-33600 * 2RP-4498

Aaron,

I have included a scanned copy of the signed Initial C-141 Remediation Permit along with an attached Conditions of Approval (COA). The OCD tracking number for this event is 2RP-4498, please refer to this tracking number on any and all submissions sent in to the OCD. Please remit a site characterization plan (see COA document included in attachment) or advise OCD of plan of action by no later than 1/5/18.

Please note: In reviewing OCD records under the API for this well an older case number of **2RP-4241** came up. Attached above is the last email that was sent regarding this case. Apparently according to the email from COG sampling was scheduled to be done on 5/15/2017. What is the current status of this case? **Please provide an update on it by no later than 1/5/18.**

Thank you,

Crystal Weaver
