Ms. Weaver,

FYI, Aaron unfortunately is no longer working in the Environmental Department, he is still with COG but has moved back to the Safety side of HSE.

As for the update requested below (and I know I am behind in responding to you due to being out all last week), Sheldon submitted a work plan for this site that addresses both releases on 12/28/17. I am sure you are aware but I didn't want not to respond to your email.

Thank You,

Becky Haskell

RE: COG \* Gehrig Federal #1 \* 30-015-33600 \* 2RP-4498

Aaron,

I have included a scanned copy of the signed Initial C-141 Remediation Permit along with an attached Conditions of Approval (COA). The OCD tracking number for this event is 2RP-4498, please refer to this tracking number on any and all submissions sent in to the OCD. Please remit a site characterization plan (see COA document included in attachment) or advise OCD of plan of action by no later than 1/5/18.

**Please note:** In reviewing OCD records under the API for this well an older case number of **2RP-4241** came up. Attached above is the last email that was sent regarding this case. Apparently according to the email from COG sampling was scheduled to be done on 5/15/2017. What is the current status of this case? **Please provide an update on it by no later than 1/5/18.**

Thank you,
