Subject: 2RP-4357 - COGs Owl 20504 JV-P #005 SWD - Delineation Event

All,

TRC Environmental anticipates conducting delineation activities at COG's Owl 20504 JV-P #005 SWD release site beginning October 3, 2017. Upon receiving laboratory analytical results from delineation soil samples, a *"Proposed Remediation Strategy"* will be prepared detailing field activities and proposing remediation activities designed to advance the site toward and NMOCD and BLM-approved closure.

If you have any questions or need any additional information, please feel free to contact Becky Haskell or myself by phone or email. Thanks.

Joel Lowry
