The **BLM acceptance/approval does not** relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment or if the location fails to reclaim properly. In such an event that the location does not revegetate, or future issues with contaminants are encountered, the operator will be asked to address the issues until the contaminant issues are fully mitigated and the location is successfully reclaimed. In addition, BLM approval does not relieve the operator of responsibility for compliance with any other federal, state or local laws/regulations.

Joel,

Your proposal for remediation of the above referenced release is approved. Please advise once remedial operations have been scheduled. Federal sites will require like approval from BLM.

**Subject:** 2RP-4357 - Owl 20504 JV-P #005 SWD - Proposed Remediation Workplan + Meeting

Mike and Shelly,

Please find attached the *Proposed Remediation Workplan* that has been prepared for Concho's Owl 20504 JV-P #005 SWD release site. Becky and I were curious if you might have the opportunity to meet with us to discuss this project in person on either Wednesday of this week or early next week. Alternatively, if you get the opportunity to review the Workplan before then, please feel free to do so. If you have any questions or need any additional information, please feel free to contact Becky or myself by phone or email. Thanks y'all.

Respectfully,

**Joel Lowry**
