Sorry I typo-ed the 2RP number 2RP-2664 is the correct one, not 2RP-2644.

RE: XTO \* Big Eddy Unit #74 Tank Battery \* 2RP-4573

Amy,

I have included a scanned copy of the signed Initial C-141 Remediation Permit along with an attached Conditions of Approval (COA). The OCD tracking number for this event is 2RP-4573, please refer to this tracking number on any and all submissions sent in to the OCD. **Please remit a report of your findings and efforts along with lab sample results, if you don't have all of that done then please provide a request for extension and validate that request with reasoning by no later than 2/28/18.**

**Please note:** When looking thru our records for this API location I found these other cases associated 2RP-2644 and 2RP-3213. Both are older releases that just have the Initial C-141 on file. Is it possible to look into these releases while the current 2RP-4573 is being dealt with. I have attached their Initial C-141s above.

Thank you,
