Hi Crystal,

Can we get back to you with a work plan for the most recent 2RP-4573 by no later than 3-19-18? However, please expect a work plan that covers the older 2RP's 2664 and 3213 in short order.

Thank you!

Amy C. Ruth

Hello Amy,

Thank you for the response. What date would you like the extension to be extended to?

Hi Ms. Crystal,

I am requesting an extension for the submittal of a work plan for 2RP-4573. We treated the area with MicroBlaze and have plans to sample that area during the remediation of the older 2RP's 2664 and 3213 with the expectation that the treatment may have been somewhat beneficial prior to sampling. We have already drafted a work plan for the 2664 and 3213 with the actual field work planned to be completed in tandem with the 2RP-3518 (North Indian Flats 24 Federal 15).

Please call me with any questions or concerns regarding this work or plans. Thank you.

Respectfully,

Amy C. Ruth

Sorry I typo-ed the 2RP number 2RP-2664 is the correct one, not 2RP-2644.

RE: XTO * Big Eddy Unit #74 Tank Battery * 2RP-4573

Amy,

I have included a scanned copy of the signed Initial C-141 Remediation Permit along with an attached Conditions of Approval (COA). The OCD tracking number for this event is 2RP-4573, please refer to this tracking number on any and all submissions sent in to the OCD. Please remit a report of your findings and efforts along with lab sample results, if you don't have all of that done then please provide a request for extension and validate that request with reasoning by no later than 2/28/18.

Please note: When looking thru our records for this API location I found these other cases associated 2RP-2644 and 2RP-3213. Both are older releases that just have the Initial C-141 on file. Is it possible to look into these releases while the current 2RP-4573 is being dealt with. I have attached their Initial C-141s above.

Thank you,

Crystal Weaver

Subject: Release Notification - Big Eddy Unit 74 (API # 30-015-22839)

Good Afternoon,

This is to notify you that this morning at approximately 7:30 am XTO discovered an accidental release of fluid from a flare stack which resulted in a small fire (approximately 15'w X 25'l). There were no injuries. We will provide details with the submission of a form C-141. Please contact me with any questions or concerns. Thanks. --Kyle
