Christine,

This release is almost a year old...what is the status?

If you have any questions or concerns, please do not hesitate to contact me.

Sincerely,

Shelly J Tucker

The **BLM acceptance/approval does not** relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment or if the location fails to reclaim properly. In such an event that the location does not revegetate, or future issues with contaminants are encountered, the operator will be asked to address the issues until the contaminant issues are fully mitigated and the location is successfully reclaimed. In addition, BLM approval does not relieve the operator of responsibility for compliance with any other federal, state or local laws/regulations.

Correction on C-141. I put produced water, and it was oil. I will send corrected C-141 shortly.

Subject: Gadwall 18 Fed Com 1 (API 30-015-33496)

All,

Yesterday we had a spill at the above mentioned lease. A corrosion hole developed in the oil stock tank. 200 bbls of oil was released into a lined, gravel filled containment. As the fluids were being recovered, a hole in the poly liner was discovered. Approximately 130 bbls of oil were lost to the soils under the battery.

We will delineate to determine depth of impact.

If you have any questions please let me know.
