RE: XTO Energy * Nash Ut 42 Tank Battery * 2RP-4572 * DOR: 12/4/17

All,

Your request to backfill and for closure of the above referenced release is approved. Please accommodate if Mr. Mann requests the additional sample.

Thank you,

Mike Bratcher

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

Subject: Backfill request/closure request Nash #042 Tank Battery/2RP-4527

All,

Please see the attached closure request reporting remediation and sampling activities for a recent release at the Nash #042 Tank Battery for XTO Energy. XTO is requesting NMOCD approve backfill for the Nash #042 Tank Battery. XTO hydro-excavated impacted soil and laboratory results from confirmation soil samples indicated the impacted soil has been removed.

Thank you
