Subject: Release notification - Remuda Basin 4-24-30 battery (API for PLU CVX JV RB 001H: 30-015-40660)

Good evening, I am writing to notify of a spill greater than 25 barrels at the Remuda Basin 4-24-30 battery. We are using the API number for the PLU CVX JV RB 001H since that well is on the same pad as the battery. Please don't hesitate to contact us with any questions.

Thank you,

Jake Foust
