OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

Maria,

Attached are the edits we discussed, I have added a better disruption to the table along with shading the map to indicate depth of excavation. Let me know if you need anything else. Thanks and have a good day.

Hello Mr. Green,

Thank you for speaking with me today. I've attached some examples that hopefully illustrate what OCD looks for in reporting. These are just examples and not meant to be a template. Please let me know if you have any questions.

Good Afternoon Maria,

I would like to resubmit the Backfill Request and Remediation Summary for the Plains COG SRO State Com # 29H Release (2RP-4814) for your review and approval. I had accidentally sent this to Mike instead of you and I apologize for the mix up. Let me know if you have any questions or if you have any corrections you would like to see. Thanks and have a good day.
