RE: BOPCO, LP (Currently operated by XTO) * PLU 78 & PLU 139 * 2RP-3980 & 2RP-3503 * DOR:11/3/16 & 1/12/16

Greetings,

Your proposal for remediation of the above referenced releases is approved. OCD would prefer to have the impacted areas fully delineated prior to implementation of remedial actions, however, there does exist some preliminary data taken relatively soon after the release events. OCD will expect the full vertical and horizontal delineation to be performed during the excavation phase of the project.

Federal sites will require like approval from BLM. Please advise once remedial activities have been scheduled.

Thank you,

Mike Bratcher
NMOCD District 2
811 South First Street
Artesia, NM 88210
575-748-1283 Ext 108

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

Subject: Work Plan 2RP-3980 & 2RP-3503

Mike and Crystal,

Thank you for taking the time on Tuesday to discuss these jobs. Please see attached work plan for your approval.

Best,
Zach
