Hello Mr. Robbins,

OCD has received your closure report for 2RP-3503, thank you! This closure is approved. Please let me know if you have any questions.

Best Regards,

Maria Pruett

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

Subject: [EXT] FW: 2RP-3503 Closure Report - XTO PLU 139

Maria,

RXSoil submitted this on behalf of XTO in May and have yet to hear back from NMOCD. It is a closure report addressing remediation actions for 2RP-3503, the project related to recently closed 2RP-3980. I am forwarding you the original message, as it was not addressed to you at the time. I was not sure if it had been passed on to you, so I figured better safe than sorry. BLM accepted this closure request last week.

All excavation data can be easily seen on pages 10 and 11 while data confirming backfilled material was clean can be found in a table on page 6.

Please reach out with any questions.

Thanks,
Zach
