Hello Ms. Karrigan,

OCD has received the closure report for 2RP-4956, thank you. At this time OCD does not approve this closure. It is denied for the following reasons:

1. OCD has determined that DTW is < 50', therefore Table 1 targets are: Chlorides < 600 mg/kg, TPH < 100 mg/kg.
2. Areas CS 1-4 require further delineation and remediation to meet Table 1.
3. All sidewall sample areas require further delineation and remediation to meet Table 1.
4. Was the area inside the containment delineated?
5. GPS tagged photos for closure not included.

Please let me know if you have any questions.

Best Regards,

*Maria Pruett*
