Subject: Conditional Approval RE: [EXT] OXY Turkey Track CTB (2RP-4949) - Delineation Workplan
Date: Wednesday, November 21, 2018 2:23:00 PM

Hello Mr. Brunson,

OCD has received the remediation plan for 2RP-4949, thank you! This plan is conditional approved with the following:

1. Location is in medium karst area, therefore remediation is to Table 1 DTW < 50'. Area around SP7 excavated to 5'.
2. GPS photos of spill required so OCD may determine which areas are on/off pad.
3. All off pad areas to contain a minimum 4' "uncontaminated", "non-waste containing" material. This may require additional sidewall samples and further delineation.
4. Restoration, reclamation and re-vegetation to 19.15.29.13 NMAC.

Please let me know if you have any questions.

Best Regards,

Maria Pruett

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

Subject: [EXT] OXY Turkey Track CTB (2RP-4949) - Delineation Workplan

Maria and Ryan,

Please find the attached Delineation Workplan and remediation proposal for the Oxy Turkey Track CTB (2RP-4949). Oxy is requesting that you review this plan and is looking forward to the OCD's and SLO's approval.

If you have any questions, please let me know.

Thanks, Cliff
