RE: Holly Energy Partners \* Colgate Osage Lease \* 2RP-4947 \* DOR: 8/21/2018

Rebecca,

Based on the additional excavation performed and analytical data presented in this current closure report, OCD approves closure for 2RP-4947. Federal sites will require like approval from BLM.

Thank you,

Mike Bratcher  
NMOCD District 2  
811 South First Street  
Artesia, NM 88210  
575-748-1283 Ext 108

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

**Subject:** [EXT] Holly Energy Colgate Osage Closure 2RP-4947

Good Morning,

I have attached the revised and updated closure report for the Holly Energy Partners, Pump Colgate Osage Lease. The previous closure submittal was denied by Maria Pruett. I have attached a copy of her correspondence for your convenience. In response, the North wall and areas at the bottom of the excavation were delineated as well as excavated further to the extent that petroleum hydrocarbons were non-detect. Please review the updated closure and advise me of your concurrence, so that we may backfill.

Thank you

Best Regards,

*Rebecca Pons*
