Subject: [EXT] (Extension Request) McIntyre A West 16 (30-015-31855) 12-03-2018 2RP-5109

Mr. Bratcher,

Under the new spill rule a work plan or closure report is due for the above release on 3/3/19. COG is currently conducting remediation activities at the release site. We are waiting for some lines to be moved to complete excavation activities. Once the lines are moved COG will continue with remediation activities. COG is requesting a three month extension until June 3, 2019 in order to complete the remediation work and prepare a closure report.

Thank You,

Becky Haskell

Mr. Bratcher/Ms. Tucker,

Please find the attached C-141 for your consideration. Also, attached is the calculation sheet to determine the estimated release volume. The liquid lost estimate is based on the spill dimensions, estimated depth of fluid (wet soil depth) and type of formation. The spreadsheet will calculate the volume lost in the ground and does not include the recovered amount in the calculation. The calculated volume in the ground and the volume recovered were added together and reported on the C-141. If you have any questions or concerns please do not hesitate to contact me.

Thank you,

DeAnn Grant
