Howdy Kyle,

I just received a call from one of the vanguard folks that advises it appears this line is leaking again this morning. Could you all check on it please.

Also on the C-141 could you look at the location of the release. I believe the leak was found in the SENE of section 1625S 29E. The C-141 is showing it as section 10 unit N, which may be the well location.

Thank you,  
Robert

I have submitted the attached form to the Hobbs District Office. We have contacted a company to help us clean up the site. Please let me know if you all need anything from us.

Thank you,

Kyle Berend
