Mr. Bratcher/Mr. Mann,

Attached is the Final C-141 for the SRO SWD #103 Release which occurred on October 23, 2018 (2RP-5042). This well has been plugged and abandoned and the battery has been dismantled, therefore no inspection can be conducted for liner integrity. Additionally, we are currently excavating the area which was under the battery as per an approved work plan for a release that occurred on November 13, 2017 (2RP-4494). COG is requesting closure for the October 23, 2018 (2RP-5042) release which was inside of a lined containment. If you have any questions please contact myself or Becky Haskell.

Thank You,

DeAnn Grant
