**Subject:** [EXT] Liner Integrity Inspection Notification

Mr. Bratcher,

TRC will be performing liner integrity inspections at the below listed COG locations during the week of 11/05/2018 to 11/09/18. Due to the amount of rain we have been getting I set the time frame for an entire week to complete these inspections because I cannot determine if all the sites will be free of standing rain water on any specific day. If any of the sites are still holding rain water at the end of the week, I will send a notification of which sites could not be inspected. If NMOCD personnel would like to be on site to witness the liner integrity inspections, please contact me by email or phone and I would be happy to schedule the inspection during your availability. Thank you.
