Per 19.15.29.8 B. (4) NMAC the responsible party may commence remediation immediately after discovery of a release. If remediation has begun, please attach a narrative of actions to date. If remedial efforts have been successfully completed or if the release occurred within a lined containment area (see 19.15.29.11(A)(5)(a) NMAC), please attach all information needed for closure evaluation.							
I hereby certify that the infor	mation given above is true and complete to the	best of my knowledge and understand that pursuant to OCD rules and					
regulations all operators are a	required to report and/or file certain release not	fications and perform corrective actions for releases which may endanger					
public health or the environment. The acceptance of a C-141 report by the OCD does not relieve the operator of liability should their operations have							
failed to adequately investigate and remediate contamination that pose a threat to groundwater, surface water, human health or the environment. In addition, OCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws							
and/or regulations.
