Brad, Tomas, and Mike,

Oxy USA, Inc. is re-submitting the C-147 packages for the proposed Sand Dunes Recycling Facility and Containments in the format requested for the separate containments. The original package has been separated into four separate C-147 forms and packages (North & South Sand Dunes and East & West Mesa Verde Containments) with the variance for the audible bird protection system on each containment noted. This is part **4 of 5** for the Sand Dunes - North Recycling Containment #1 - C-147 Package.
