OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

## 2RP-5282

I used this RP# two time for the same well, location and same type spill that occurred one day to the next.. They will have different incident # though. If this doesn't work for you all, please let me know. I will go back the other way. 😊

Thanks,
