Attachments: Closure Approval - XTO - James Ranch Unit #36 Bat - (2RP-5448) 8.12.19.pdf

Kyle,

XTO and DCP Midstream submitted C-141s for the exact same spill back in May of 2019. DCP has taken responsibility for the spill and will proceed with the site clean-up.

We have received your final C-141 for **2RP-5448 James Ranch Unit #36 Bat**, thank you. This closure is approved.

Please let me know if you have any further questions.

Regards,

Robert J Hamlet

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

Kyle,

Can I get you to sign and date this closure page for the James Ranch Unit #36 Bat spill that DCP is taking responsibility for and I'll close it out.

Thanks,

Subject: Update for NMOCD- James Ranch Unit #36 Battery (2RP-5448)

Afternoon Rob,

This email serves as a reminder of the phone conversation we had regarding the James Ranch Unit # 36 Battery (2RP-5448). As we discussed, DCP Midstream has assumed responsibility for this release and has submitted their own notification and permit request. Also, attached is a cut from an email I received from Bill Glushko at DCP Midstream. Please let me know if I need to provide additional information to you for closure. Thanks. –Kyle

Thanks,

Kyle Littrell

Kyle,

After our call, I've advised Kyle Norman (Tasman) to proceed with the cleanup and sampling, and told him DCP will t

As requested, attached is the resubmitted Initial C141 for the Line Strike, 5-1-2019.

Tasman and I have been in contact with Robert Hamlet about a sampling plan for closure.

I'll keep you in the loop and send you the results. When they come back in 2 weeks or so.

Thanks, and don't hesitate to call if you have any questions.

Bill
