	Initial Response						
The responsible p	party must undertake the following actions immediate	ly unless they could create a safety hazard that would result in injury					
The source of the rele	ase has been stopped.						
=	s been secured to protect human health and	the environment.					
Released materials har	ve been contained via the use of berms or	dikes, absorbent pads, or other containment devices.					
All free liquids and recoverable materials have been removed and managed appropriately.							
If all the actions described above have <u>not</u> been undertaken, explain why:							
Per 19.15.29 8 B (4) NM/	AC the responsible party may commence	emediation immediately after discovery of a release. If remediation					
has begun, please attach a	a narrative of actions to date. If remedial	efforts have been successfully completed or if the release occurred					
within a lined containment area (see 19.15.29.11(A)(5)(a) NMAC), please attach all information needed for closure evaluation.							
I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to OCD rules and							
regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger							
public health or the environment. The acceptance of a C-141 report by the OCD does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to groundwater, surface water, human health or the environment. In							
addition, OCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
