Good Afternoon Andrea,

OCD has received the C-147 for the Recycling containment for the SEU 2206-20M. After further review, the application has been approved with the following conditions of approval.

- Enduring will notify the OCD District III at least 48 hours but no more than 1 week prior to the start of construction of the pond.
- Enduring will notify the OCD District III at least 48 hours but no more than 1 week at the completion of the leak detection prior to being covered by any sand/liner.

Enduring may find the approved permit application (once scanned) by searching for 3RF-30 in OCD Online. Please remember Enduring will need the Admin # to report on Form C-148 monthly for all Recycling facilities.

Please let me know if you have any questions and/or concerns
