### RE: Holly Energy Partners Abo Centurion Station Release (NRM2003032458) Request for Extension

Ms. Crain,  
OCD approves your requested extension to June 4, 2020 for RE: Holly Energy Partners Abo Centurion Station Release (NRM2003032458) Request for Extension.  
Regards,

*Victoria Venegas*  
EMNRD  
OCD-District II  
Artesia NM  
[Victoria.Venegas@state.nm.us](mailto:Victoria.Venegas@state.nm.us)

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

---

Ms. Venegas,

On December 4, 2019, an estimated release of 15 barrels of crude oil occurred at the Holly Energy Partners (HEP) Abo Centurion Station. Approximately 3 barrels of oil were recovered by vacuum truck and disposed at an NMOCD approved facility. The site is located in Unit Letter F, Section 10, Township 18 South, Range 27 East, Eddy County, New Mexico.

The NMOCD was notified of the release on December 4, 2019 and the initial C-141 was submitted on December 18, 2019. Following resolution of a technical delay with the NMOCD reporting portal, the approved initial C-141 was received by HEP on January 29, 2020 and the site was assigned the NMOCD Tracking No.: NRM2003032458. A copy of the initial C-141 is attached.

Delineation activities were conducted at the site on December 12, 2019. Laboratory results indicate that further investigation is necessary to complete vertical delineation of TPH and BTEX impacts.

HEP respectfully requests a three month extension (until June 4, 2020) for submittal of the Remediation Workplan to the NMOCD.

Please let us know if you have any questions, need additional information, and/or approve the three month extension.

Sincerely,

**Cindy Crain, P.G.**

Ms. Nolan,

I'm sorry I missed your call. If you need an extension for any project -remediation plan or closure report- please send us an email that include:

- **Incident Number** (or RP number. Very important)
- Reason why you need an extension. By rule [19.15.29.11](#). *"The responsible party may seek an extension of time to submit characterization information for good reason"*
- Extension date -up to three months-. If necessary, the operator can request a second extension.

Finally, it is very import to include all NMOCD environmental staff in all your communications:

Hamlet, Robert, EMNRD [Robert.Hamlet@state.nm.us](mailto:Robert.Hamlet@state.nm.us)

Eads, Cristina, EMNRD [Cristina.Eads@state.nm.us](mailto:Cristina.Eads@state.nm.us)

Regards,

Victoria Venegas
