RE: 2RP-5595

Kalei,

Your request for an extension to November 25th, 2019 is approved.

Thank you,

Robert J Hamlet

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

Subject: [EXT] Extension Request- XTO- Big Eddy Unit DI4B #274H (2RP-5595)

All,

XTO is requesting an extension to the current deadline of October 25, 2019 for submitting a remediation work plan or closure report required in 19.15.29.12.B.(1) NMAC at the Big Eddy Unit DI4B #274H (2RP-5595). The release was discovered July 27, 2019 and initial site assessment and remediation began August 20, 2019. Excavation work and confirmation sampling was completed yesterday. Pending review of analytical results and to provide enough time to complete a remediation work plan or closure report, XTO requests a 30-day extension of the current deadline until November 25, 2019.

Thank you,

Kalei Jennings
