RE: 2RP-5436

Chase,

Your request for an extension of 30 days is approved.

Thank you,

Robert J Hamlet

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

Subject: [EXT] Extension Request: Nix GP Battery 2RP-5436

Ms. Venegas and Mr. Hamlet,

I would like to request an additional 30 day extension for the completion of the Characterization Plan for the below listed location. Samples were taken at the site last week (08/27/2019) in the area that a bioremediation product was added to address TPH and BTEX, and although one section has cleaned up entirely, the other three sections will require more time and possibly another application of the product.

Nix GP Battery
Section 22, T18S-R26E (UL O)
Eddy County, New Mexico

2RP-5436

Thank you,

Chase Settle, M.S.
