**Subject:** [EXT] XTO-Extension Request- Corral Canyon Fed 008H (NRH2002732419)

All,

XTO is requesting an extension of the current 90-day deadline for submitting a remediation work plan or closure report required in 19.15.29.12.B.(1) NMAC at the Corral Canyon Fed 008H (NRH2002732419). The release was discovered on December 13, 2019 and initial site assessment began December 23, 2019. LTE personnel returned to the site to oversee excavation activities; however, ongoing frac operations delayed further delineation and excavation of impacted soils due to site restrictions for safety concerns. Regular updates of drilling and completion operations will continue to be provided to ensure that work begins as soon as the production operations are complete. To provide enough time to fully assess the site and conduct remediation work, XTO requests an extension of the deadline until July 6, 2020.

Thank you,

Kalei Jennings
