Subject: [EXT] XTO Extension Request- Monument 36 Battery (1RP-5719/NRM1927438604)

All,

XTO is requesting an extension of the current deadline for submitting a remediation work plan or closure report required in 19.15.29.12.B.(1) NMAC at the Monument 36 Battery (1RP-5719) . The release was discovered on September 10, 2019. Initial site assessment began September 17, 2019. Remedial action has been ongoing since November. Due to the proximity of production equipment some areas have been treated with microblaze. Laboratory analytical results collected after the microblaze treatment and further soil removal indicate further remediation activities are needed. To provide enough time for further site assessment, remediation work, and the completion of a remediation work plan or closure report, XTO requests a 120- day extension of the deadline to July 9, 2020.

Thank you,

Tacoma Morrissey
