**Subject:** [EXT] RE: Marathon Oil Company - Extension Request - HF 7 Fed Com 1 NRM2002458606

Good Afternoon,

Upon receiving the below mentioned laboratory analysis we learned that additional delineation is required in order to meet NMOCD standards. Marathon is requesting for a 90 day extension to ensure the remediation is complete to the correct requirements.

Thank you in advance for your time.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

**Subject:** [EXT] Marathon Oil Company - Extension Request - HF 7 Fed Com 1 NRM2002458606

Good Morning All,

This email serves as an extension request for the release that occurred at the HF 7 Fed Com 1 (NRM2002458606) – originally due 3/4/2020. I apologize for this late notice – for some reason, in our records we had the 90 days for this project to end on 3/10/2020 and that was the deadline given to the consultant. All dirt work has been completed, we are just waiting on the final laboratory analysis and to finish up the remediation closure report. I would like to request an extension to 3/10/2020 to ensure all review and reporting writing is done correctly.

Thank you so much for your time.

**Melodie Sanjari**
