Mr. Bratcher,

Under the new spill rule a closure report is due for the above release on 6/21/2019. COG submitted a work plan which was approved by the NMOCDD on May 7, 2019, however COG is still awaiting approval from the SLO. We can't start remediation activities without SLO approval. COG is requesting a three month extension until September 21, 2019 in order to hopefully obtain SLO approval and conduct remediation activities and prepare a closure report. If we do not obtain SLO approval we may have to request an additional extension. Please let me know if you have any questions.

Thank you,

DeAnn Grant
