NCE2002435751 ROCK DAISY ROAD RELEASE @ G-33-26S-25E 0N 0E

Mr. Guesnier,

This site needs to be delineated to the strictest cleanup levels in Table 1. The remediation plan has to be updated according to the new closure criteria and new lab data needs to be provided as evidence of the delineations efforts.

Then, resubmit your remediation plan via OCD's fee portal.

Please let me know if you have any other questions or concerns.

Regards,

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

Victoria,

Thank you for the reply. I simply was curious if you would like us to amend the RAP and resubmit, or move forward with the Karst standards you brought to our attention in place?

Regards,

Joseph Guesnier
