Subject: Remediation Denied - COG - Sebastian Fed Com #1H (Incident #NRM1929031912) (1RP-5749)
Attachments: Remediation Denied - COG - Sebastian Fed Com #1H.pdf

Brittany,

We have received your Workplan/Remediation Proposal for **Incident #NRM1929031912 Sebastian Fed Com #1H**, thank you. This Workplan/Remediation proposal is denied.

- Soil Sample Points P1@Surf and EFS3@Surf were over the limit on Chlorides and/or TPH.
- Hand-auger bore holes (V1 through V3) were advanced in order to vertically delineate areas around soil sample P1 and EFS3.
- All of the Proposed Remediation activities are warranted and acceptable for approval
- The Remediation Plan on the Payment Portal is denied because there is not a signed/dated copy of a Remediation Plan C-141 Page 5. Please include this page in your next submission of the report to the Payment Portal. Please email me the P.O. Number and date submitted and I will go ahead and approve the remediation plan and place a copy in the well file.

Please let me know if you have any further questions.

Thank you,

Robert J Hamlet
