**Subject:** [EXT] RE: Ghost Rider 22-15 Fed COM 202# 1RP-5635

Ms. Venegas,

I checked the API number on the C-141 and it is wrong. The API number for this release is 30-025-45769. Let me know if I need to do something on my end. Sorry for the inconvenience. Thanks and have a good day.

Mr. Baker,

Sorry, but the lat/log in the closure report and in the C-141 do not match the API# provided in the initial C-141. Can you please check the initial C-141 and let me know if the API# is wrong? I need to update the system and make the necessary corrections if the API# is incorrect.

Thanks again,

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

**Closure Report NDHR1922134717 EAST BLINEBRY DRINKARD UNIT #037 @ 30-025-06556**

Good morning Mr. Baker,  
Can you please clarify the following: Where is sample point SP3 located on the confirmation sampling map (Bottom Samples Grid)? The report says the SP3 sample was excavated @ 1foot. Final Bottom Samples Table shows the results for samples that were taken at the surface and sample B26 was collected @6".  
On page 16, what does GR202H stands for?  
Thanks,

Victoria Venegas
