OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

Subject: [EXT] XTO- Extension Request- Hat Mesa 32 State #2 (NRM1935430604)

All,

XTO is requesting an extension to the current deadline of April 19, 2020 for submitting a remediation work plan or closure report required in 19.15.29.12.B.(1) NMAC at the Hat Mesa 32 State #2 (NRM1935430604). The release was discovered October 21, 2019 and initial site assessment was conducted. Fluids released flowed onto the pad and into the surrounding pasture. A Right of Entry (ROE) Permit was submitted to the State Land Office (SLO) on February 6, 2020. The executed permit is still pending. XTO will begin remediation activities as soon as the executed permit is received. In order to conduct further site assessment, complete the remediation work, and submit a remediation work plan or closure report XTO requests an extension of this deadline until October 19, 2020.

Thank you,

A proud member
