RE: XTO- Extension Request- Nash Unit 302-402H (NVV2002841074)

Ms. Jennings,
OCD approved an extension to July 15, 2020 for Nash Unit 302-402H (NVV2002841074).
Thank you,

Victoria Venegas
State of New Mexico

Victoria.Venegas@state.nm.us

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

Subject: [EXT] XTO- Extension Request- Nash Unit 302-402H (NVV2002841074)

All,

XTO is requesting an extension to the current deadline of April 15, 2020 for submitting a remediation work plan or closure report required in 19.15.29.12.B.(1) NMAC at the Nash Unit 302-402H (NVV2002841074). The release was discovered October 17, 2019 and initial site assessment was conducted. Further remediation work at the site is currently ongoing. The most recent analytical results indicated the need for further excavation at the site. To provide enough time to complete remediation work, and submit a remediation work plan or closure report, XTO requests an extension of the deadline to September 15, 2020.

Thank you,

A proud member
of WSP
